

Sprint 4 Burndown

- Sprint 4 burndown chart reflects the completion of 24 sprint points
- Start date: 22/07/2024
- End date: 02/08/2024
- Velocity in Sprint 1: 41/41
- Velocity in Sprint 2: 34/31
- Velocity in Sprint 3: 39/24
- Velocity in Sprint 4: 25/24
- Reflection: Many tickets were completed late in the sprint likely due to a CSCC69 assignment that was due in the early stages of the sprint. Only one small bug ticket was added. The change in velocity can be explained by the team being very busy with 2 other projects from other courses that weren't a factor before.
